

Resources

NADA provides a suite of resources to support workers and organisations in the NSW non government alcohol and other drugs (AOD) sector.

About NADA

The Network of Alcohol and other Drugs Agencies (NADA) is the peak organisation for the non government alcohol and other drugs sector in NSW. Our vision is a connected and sustainable sector providing quality evidence based programs to reduce alcohol and drug related harms to NSW communities.

NADA represents approximately 100 organisational members that provide a broad range of services including health promotion and harm reduction, early intervention, treatment and after-care programs. Our members comprise of services that are diverse in their structure, philosophy and approach to alcohol and other drugs service delivery.

NADA provides a range of programs and services that focus on sector and workforce development, information management, governance and management support, sector representation and advocacy, as well as actively contributing to public health policy.
